1.3 Scope of Work.

Service Areas represent five groupings of the ninety-nine (99) counties in Iowa into defined geographic areas for improved, localized administration of programs (See the Service Area map in Attachment B). RRTS services shall be provided by Contractor in a Service Area specific manner with the goal of moving Children back to their communities of origin to preserve connections of youth to their families, home communities, schools, and community-based supports as well as achieve better outcomes for Resource Families. Contractor shall perform the services listed in this Scope of Work only in the Service Area(s) for which they are contracted as specified in Section 1.2.2. The Contractor shall enact a process for working with Contractors in other Service Areas to coordinate services when needed.

1.3.2 Collaboration and Consultation

In order to achieve the desired outcomes of safety, Permanency, and well-being for Children, each Contractor shall collaborate with the Agency, Juvenile Court Services, other Contractors, and stakeholders. Strong collaboration will strengthen services, identify gaps or needs, promote best practice, and avoid service duplication. The Contractor shall use collaborative efforts and provide a comprehensive, connected approach to recruiting, retaining, training, and supporting Resource Families. The Contractor shall continue this move towards collaboration by working and participating in local, Service Area, and statewide committees, workgroups, and planning groups. Instead of separate staff filling the functions of coordinating a family's training plan, licensing/approval, and support, each Resource Family shall have a single Caseworker/point-of-contact throughout the family's relationship with the provider. This does not mean other members of the Contractor's staff may not interact with a family, but the one Caseworker shall be the person guiding the family through the RRTS process and acting as their point of contact for questions, concerns, and needs.

In the One Caseworker Model, Caseworkers shall become very familiar with their Resource Families which will allow the one Caseworker to recommend better Placement matches, introduce enhanced Child management techniques, and provide specific background knowledge to help the Resource Family meet the Child's needs. Caseworkers shall know the Resource Family's ability to work with a Child's birth parents, extended family, and how the Resource Family supports a Child's connections to birth family, siblings, culture, and community.

Caseworkers shall maintain familiarity with each Resource Family's history of fostering and know the needs, ages, and behaviors of Children with which they have had success. Caseworkers shall understand each family's current situations and judge their ability to parent another Child given their immediate circumstances.

1.3.4 Recruitment and Retention

The Contractor shall have a sufficient pool of Resource Families available to meet the behavioral, emotional, medical, educational, developmental and cultural needs of Children who need out-of-home care. In order to maintain this sufficient pool of Resource Families and meet Children's needs, the Contractor shall enact and operate effective recruitment and retention programs.

To ensure the best possible match between a Resource Family and a Child, the Contractor shall maintain a pool of Resource Families diverse in geographic location, training, capacity, strengths, ability, skills, race, religion, and ethnicity. The Contractor shall ensure each Service Area for which they are contracted for has:

- a) A sufficient number of Resource Families who are ready, able, and willing to accept a Child who is matched into their home. Capacity shall be determined by the number of Resource Families who are available for matching, not by the number of licensed families who are either licensed for a specific

Child, who are only available to provide respite, who have not been relicensed, or who have not been willing to have a Child placed in their home for one licensing year.

- b) Resource Families who reflect the race, ethnicity, and culture of Children in their Service Area. The Contractor shall ensure the provision of effective, equitable, understandable, and respectful supports and services that are responsive to diverse cultural beliefs and practices, preferred languages, health literacy, and other communication needs. This shall be measured utilizing the Culturally and Linguistically Appropriate Service Standards adopted by the Agency (Attachment C).
- c) Resource Families able to honor, respect, and work to develop, enhance, and maintain a foster Child's connections to their parents and extended family by mentoring birth parents and supporting ongoing contact between the Child and the Child's family including attending Family Team Decision-Making (FTDM) Meeting or Youth Transition Decision-Making (YTDM) Meeting at the request of the Child's family.
- d) Resource Families who will maintain sibling connections when siblings are in separate Placement settings.
- e) Resource Families able to collaborate and partner with service providers working with the family.
- f) Resource Families who are flexible and available to take Children in care to medical appointments, therapy appointments, and visitation with parents and family whenever possible.

 - vii. Children who have numerous medical or therapeutic appointments;
 - viii. Children who have frequent family visits; and
 - ix. Children who are LGBTQ.

1.3.4.1 Characteristics and Capabilities of Selected Families

Resource Families and Enhanced Foster Family Home parents shall not simply be available and willing to participate in the program but shall be actively engaged and eager to help Children in every possible way. Resource Families and Enhanced Foster Family Home parents shall, at minimum, have the following characteristics and capabilities:

- a) Strong desire to protect, support, and encourage Children.
- b) Ability, experience, and skills to effectively raise and care for Children.
- c) Willingness to work with Children's birth families including frequent family visits, even if this will lead to Placement of the Child with a member of the Child's birth family.
- d) Ability to support a child's education, health, and development of life skills.
- e) Desire to support innovation and continued change and improvement.

1.3.4.2 Recruitment and Retention Plans

In order to create and maintain a sufficient pool of Resource Families, the Contractor shall develop and implement, in partnership with the Service Area and the Agency, specific recruitment and retention plans for Resource Families to ensure appropriate capacity and coverage for all counties in the contracted Service Area. Activities related to the recruitment of new licensed/approved Resource Families and retention activities for current Resource Families shall be contained in each Service Area plan. The Service Area-specific recruitment and retention plan shall incorporate details on how the Contractor shall complete the required services while following the Agency's Guiding Principles (Attachment D), Agency's Model of Practice, and the Family-Centered Model of Practice. In addition to following and

including these pre-established methods and standards, the Contractor shall work to incorporate innovative ideas that help move the Agency toward the future goals outlined in the Contract, the Guiding Principles, Agency's Model of Practice, and Family-Centered Model of Practice. The Contractor shall be proactive in delivering these services in new and better ways to improve the overall provision of RRTS services. If the Contractor is not satisfied with the dispute resolution decision of the Agency worker and their supervisor, the Contractor may refer the situation in writing or via electronic communication to the respective Agency Service Area Manager (SAM) or designee for review. This review shall be generally completed within seven (7) Business Days after receipt of the request for review. After completion of this review, the Agency SAM or designee will communicate the Agency's decision in writing to the Contractor.

If at the conclusion of the initial Performance Improvement Plan the Contractor is still not performing to Contract standards, the Contractor shall develop a second Performance Improvement Plan. At minimum, the Agency will conduct an annual review; however, reviews may occur more frequently at the Agency's discretion. As part of the review(s), the Agency may require the Contractor to provide additional data, may perform on-site reviews, and may consider information from other sources.

The Agency may require one or more meetings to discuss the outcome of a review. Meetings may be held in person. During the review meetings, the parties will discuss the deliverables that have been provided or are in process under this Contract, achievement of the performance measures, and any concerns identified through the Agency's Contract monitoring activities.

Any party may recommend alternative courses of action or changes that will facilitate problem resolution. The Contract Owner has final authority to approve problem-resolution activities.

The Agency's acceptance of a problem report shall not relieve the Contractor of any obligation under this Contract or waive any other remedy. 1.3.14.4 Addressing Deficiencies

To the extent that deficiencies are identified in the Contractor's performance and notwithstanding other remedies available under this Contract, the Agency may require the Contractor to develop and comply with a plan acceptable to the Agency to resolve the deficiencies.

If the Contract is extended past the initial two-year period, and no adjustments have been made to performance measures, then the latest Contract year's performance measures will be extended to the next Contract year,

The following performance measures determine eligibility for performance incentive payments.

1.3.15.2 Performance Measure 1 – Stability

Children placed into a licensed Foster Family home within the quarterly reporting period will experience Stability in Placement. A Child's first Placement should be the Child's only Placement. The Contract payment for performance will be based on the percent of Children who remain in the same licensed foster home 180 days after Placement or:

- will have exited the licensed foster home to a trial home visit working towards reunification; or
- will have exited to a relative home; or
- will have exited to a pre-adoptive Placement working toward Permanency; or
- will have attained Permanency through adoption or guardianship.

The percent of Children who have Stability for the first 180 days in family Foster Care homes will be measured on specific entry cohort. The entry cohort is Children who experience their first Placement into a Foster Family home from their removal home or from shelter under this Contract. The Contractor will be responsible for the stability of any Child placed with a Resource Family within the Contractor's Service Area. The entry cohort will be determined at the end of each measurement quarter. Performance will be evaluated 180 days after the last day of the measurement quarter. Any Child who experiences more than one licensed Foster Family home Placement within the measurement quarter will be evaluated based upon the earliest of the licensed Foster Family home Placements within the measurement quarter.

Example provided for clarity: The first measurement quarter of the contract is expected to be 7/1/2016-9/30/2016. The entry cohort for this measure will be all Children placed with a Resource family within the measurement quarter. For each child, stability will be measured based on the 180 day time period starting on their entry date. A child entering on 7/1/2016 will be measured from 7/1/2016-12/28/2016. A child entering on 9/30/2016 will be measured from 9/30/2016-3/29/2017. Performance for this entry cohort will be evaluated after 3/29/2016 when all Children within the entry cohort have passed the 180th day mark.

Contract payment will be made using the following standards (note: the Gold and Silver Standards are mutually exclusive by quarter and both cannot be earned for the same quarter):

The Contractor agrees that this provision constitutes proper and timely notice under any applicable laws governing offset.

2.5 Termination.

2.5.1 Termination for Cause by the Agency. The Agency may terminate this Contract upon written notice for the breach by the Contractor or any subcontractor of any material term, condition or provision of this Contract, if such breach is not cured within the time period specified in the Agency's notice of breach or any subsequent notice or correspondence delivered by the Agency to the Contractor, provided that cure is feasible. In addition, the Agency may terminate this Contract

effective immediately without penalty and without advance notice or opportunity to cure for any of the following reasons:

2.5.2 Termination Upon Notice. Following a thirty (30) day written notice, the Agency may terminate this Contract in whole or in part without penalty and without incurring any further obligation to the Contractor. Termination can be for any reason or no reason at all.

2.5.3 Termination Due to Lack of Funds or Change in Law. Notwithstanding anything in this Contract to the contrary, and subject to the limitations set forth below, the Agency shall have the right to terminate this Contract without penalty and without any advance notice as a result of any of the following:

2.5.3.1 The legislature or governor fail in the sole opinion of the Agency to appropriate funds sufficient to allow the Agency to either meet its obligations under this Contract or to operate as required and to fulfill its obligations under this Contract; or

2.5.3.2 If funds are de-appropriated, reduced, not allocated, or receipt of funds is delayed, or if any funds or revenues needed by the Agency to make any payment hereunder are insufficient or unavailable for

any other reason as determined by the Agency in its sole discretion; or

2.5.3.3 If the Agency's authorization to conduct its business or engage in activities or operations related to the subject matter of this Contract is withdrawn or materially altered or modified; or

The Agency shall provide the Contractor with written notice of termination pursuant to this section.

2.5.4 Other remedies. The Agency's right to terminate this Contract shall be in addition to and not exclusive of other remedies available to the Agency, and the Agency shall be entitled to exercise any other rights and pursue any remedies, in law, at equity, or otherwise.

2.5.5 Limitation of the State's Payment

Obligations. In the event of termination of this Contract for any reason by either party (except for termination by the Agency pursuant to Section 2.5.1, *Termination for Cause by the Agency*) the Agency shall pay only those amounts, if any, due and owing to the Contractor hereunder for Deliverables actually and satisfactorily provided in accordance with the provisions of this Contract up to and including the date of termination of this Contract and for which the Agency is obligated to pay pursuant to this Contract; provided however, that in the event the Agency terminates this Contract pursuant to Section 2.5.3, *Termination Due to Lack of Funds or Change in Law*, the Agency's obligation to pay the Contractor such amounts and other compensation shall be limited by, and subject to, legally available funds. Payment will be made only upon submission of Invoices and proper proof of the Contractor's claim. Notwithstanding the foregoing, this section in no way limits the rights or remedies available to the Agency and shall not be construed to require the Agency to pay any compensation or other amounts hereunder in the event of the Contractor's breach of this Contract or any amounts withheld by the Agency in accordance with the terms of this Contract. The Agency shall not be liable, under any circumstances, for any of the following:

2.5.5.1 The payment of unemployment compensation to the Contractor's employees;

2.5.5.2 The payment of workers' compensation claims, which occur during the Contract or extend beyond the date on which the Contract terminates;

2.5.6.2 Immediately cease using and return to the Agency any property or materials, whether tangible or intangible, provided by the Agency to the Contractor.

2.5.6.3 Cooperate in good faith with the Agency and its employees, agents, and independent contractors during the transition period between the Close-Out Event and the substitution of any replacement service provider.

2.5.6.4 Immediately return to the Agency any payments made by the Agency for Deliverables that were not rendered or provided by the Contractor.

2.5.6.5 Immediately deliver to the Agency any and all Deliverables for which the Agency has made payment (in whole or in part) that are in the possession or under the control of the Contractor or its agents or subcontractors in whatever stage of development and form of recordation such property is expressed or embodied at that time.

2.5.7 Termination for Cause by the Contractor.

The Contractor may only terminate this Contract for the breach by the Agency of any material term of this Contract, if such breach is not cured within sixty (60)

days of the Agency's receipt of the Contractor's written notice of breach.

The Contractor agrees to indemnify and hold harmless the State and its officers, appointed and elected officials, board and commission members, employees, volunteers, and agents (collectively the "Indemnified Parties"), from any and all costs, expenses, losses, claims, damages, liabilities, settlements, and judgments (including, without limitation, the reasonable value of the time spent by the Attorney General's Office,) and the costs, expenses, and attorneys' fees of other counsel retained by the Indemnified Parties directly or indirectly related to, resulting from, or arising out of this Contract, including but not limited to any claims related to, resulting from, or arising out of:

2.7.1.1 Any breach of this Contract;

2.7.1.3 The Contractor's performance or attempted performance of this Contract, including any agent or subcontractor utilized or employed by the Contractor;

2.7.1.4 Any failure by the Contractor to make all reports, payments, and withholdings required by federal and state law with respect to social security, employee income and other taxes, fees, or costs required by the Contractor to conduct business in the State of Iowa;

2.7.1.5 Any claim of misappropriation of a trade secret or infringement or violation of any intellectual property rights, proprietary rights, or personal rights of any third party, including any claim that any Deliverable or any use thereof (or the exercise of any rights with respect thereto) infringes, violates, or misappropriates any patent, copyright, trade secret, trademark, trade dress, mask work, utility design, or other intellectual property right or proprietary right of any third party.

2.8 Insurance.

2.8.1 Insurance Requirements. The Contractor, and any subcontractor, shall maintain in full force and effect, with insurance companies licensed by the State of Iowa, at the Contractor's expense, insurance covering its work during the entire term of this Contract, which includes any extensions or renewals

thereof. The Contractor's insurance shall, among other things:

2.8.1.1 Be occurrence based and shall insure against any loss or damage resulting from or related to the Contractor's performance of this Contract regardless of the date the claim is filed or expiration of the policy.

2.8.1.2. Name the State of Iowa and the Agency as additional insureds or loss payees on the policies for all coverages required by this Contract, with the exception of Workers' Compensation, or the Contractor shall obtain an endorsement to the same effect; and

2.8.1.3 Provide a waiver of any subrogation rights that any of its insurance carriers might have against the State on the policies for all coverages required by this Contract, with the exception of Workers' Compensation.

The requirements set forth in this section shall be indicated on the certificates of insurance coverage supplied to the Agency.

2.8.2 Types and Amounts of Insurance Required.

Unless otherwise requested by the Agency in writing, the Contractor shall cause to be issued insurance coverages insuring the Contractor and/or subcontractors against all general liabilities, product liability, personal injury, property damage, and (where applicable) professional liability in the amount specified in the Special Terms for each occurrence. In addition, the Contractor shall ensure it has any necessary workers' compensation and employer liability insurance as required by Iowa law.

2.8.3 Certificates of Coverage. The Contractor shall submit certificates of the insurance, which indicate coverage and notice provisions as required by this Contract, to the Agency upon execution of this Contract. The Contractor shall maintain all insurance policies required by this Contract in full force and effect during the entire term of this Contract, which includes any extensions or renewals thereof, and shall not permit such policies to be canceled or amended except with the advance written approval of the Agency. The insurer shall state in the certificate that no cancellation of the insurance will be made without at least a thirty (30) day prior written notice to the Agency. The certificates shall be subject to approval by the Agency. Approval of the insurance certificates by the Agency shall not relieve the Contractor of any obligation under this Contract.

2.8.4 Notice of Claim. Contractor shall provide prompt notice to the Agency of any claim related to

the contracted services made by a third party. If the claim matures to litigation, the Contractor shall keep the Agency regularly informed of the status of the lawsuit, including any substantive rulings. The Contractor shall confer directly with the Agency about and before any substantive settlement negotiations.

2.9 Ownership and Security of Agency Information.

2.9.1 Ownership and Disposition of Agency Information. Any information either supplied by the Agency to the Contractor, or collected by the Contractor on the Agency's behalf in the course of the performance of this Contract, shall be considered the property of the Agency ("Agency Information"). The Contractor will not use the Agency Information for any purpose other than providing services under the Contract, nor will any part of the information and records be disclosed, sold, assigned, leased, or otherwise provided to third parties or commercially exploited by or on behalf of the Contractor. The Agency shall own all Agency Information that may reside within the Contractor's hosting environment and/or equipment/media.

2.9.2 Foreign Hosting and Storage Prohibited.

Agency Information shall be hosted and/or stored within the continental United States only.

2.9.3 Access to Agency Information that is Confidential Information. The Contractor's employees, agents, and subcontractors may have access to Agency Information that is Confidential Information to the extent necessary to carry out responsibilities under the Contract. Access to such Confidential Information shall comply with both the State's and the Agency's policies and procedures. In all instances, access to Agency Information from outside of the United States and its protectorates, either by the Contractor, including a foreign office or division of the Contractor or its affiliates or associates, or any subcontractor, is prohibited.

2.9.4 No Use or Disclosure of Confidential Information. Confidential Information collected, maintained, or used in the course of performance of the Contract shall only be used or disclosed by the Contractor as expressly authorized by law and only with the prior written consent of the Agency, either during the period of the Contract or thereafter. The Contractor shall immediately report to the Agency any unauthorized use or disclosure of Confidential Information. The Contractor may be held civilly or

criminally liable for improper use or disclosure of Confidential Information.

2.9.5 Contractor Breach Notification Obligations.

The Contractor agrees to comply with all applicable laws that require the notification of individuals in the event of unauthorized use or disclosure of Confidential Information or other event(s) requiring notification in accordance with applicable law. In the event of a breach of the Contractor's security obligations or other event requiring notification under applicable law, the Contractor agrees to follow Agency directives, which may include assuming responsibility for informing all such individuals in accordance with applicable laws, and to indemnify, hold harmless, and defend the State of Iowa against any claims, damages, or other harm related to such breach.

2.9.6 Compliance of Contractor Personnel. The Contractor and the Contractor's personnel shall comply with the Agency's and the State's security and personnel policies, procedures, and rules, including any procedure which the Agency's personnel, contractors, and consultants are normally asked to follow. The Contractor agrees to cooperate fully and to provide any assistance necessary to the Agency in the investigation of any security breaches that may involve the Contractor or the Contractor's personnel. All services shall be performed in accordance with State Information Technology security standards and policies as well as Agency security protocols and procedures. By way of example only, see Iowa Code 8B.23, <http://secureonline.iowa.gov/links/index.html>, and <https://ocio.iowa.gov/home/standards>.

2.9.7 Subpoena. In the event that a subpoena or other legal process is served upon the Contractor for records containing Confidential Information, the Contractor shall promptly notify the Agency and cooperate with the Agency in any lawful effort to protect the Confidential Information.

2.9.8 Return and/or Destruction of Information. Upon expiration or termination of the Contract for any reason, the Contractor agrees to comply with all Agency directives regarding the return or destruction of all Agency Information and any derivative work. Delivery of returned Agency Information must be through a secured electronic transmission or by parcel service that utilizes tracking numbers. Such information must be provided in a format useable by the Agency. Following the Agency's verified receipt of the Agency Information and any derivative work,

the Contractor agrees to physically and/or electronically destroy or erase all residual Agency Information regardless of format from the entire Contractor's technology resources and any other storage media. This includes, but is not limited to, all production copies, test copies, backup copies and /or printed copies of information created on any other servers or media and at all other Contractor sites. Any permitted destruction of Agency Information must occur in such a manner as to render the information incapable of being reconstructed or recovered. The Contractor will provide a record of information destruction to the Agency for inspection and records retention no later than thirty (30) days after destruction.

2.9.9 Contractor's Inability to Return and/or Destroy Information. If for any reason the Agency Information cannot be returned and/or destroyed upon expiration or termination of the Contract, the Contractor agrees to notify the Agency with an explanation as to the conditions which make return and/or destruction not possible or feasible. Upon mutual agreement by both parties that the return and/or destruction of the information is not possible or feasible, the Contractor shall make the Agency Information inaccessible. The Contractor shall not use or disclose such retained Agency Information for any purposes other than those expressly permitted by the Agency. The Contractor shall provide to the Agency a detailed description as to the procedures and methods used to make the Agency Information inaccessible no later than thirty (30) days after making the information inaccessible. If the Agency provides written permission for the Contractor to retain the Agency Information in the Contractor's information systems, the Contractor will extend the protections of this Contract to such information and limit any further uses or disclosures of such information.

2.9.10 Contractors that are Business Associates. If the Contractor is the Agency's Business Associate, and there is a conflict between the Business Associate Agreement and this Section 2.9, the provisions in the Business Associate Agreement shall control.

2.10 Intellectual Property.

2.10.1 Ownership and Assignment of Other Deliverables. The Contractor agrees that the State and the Agency shall become the sole and exclusive owners of all Deliverables. The Contractor hereby

irrevocably assigns, transfers and conveys to the State and the Agency all right, title and interest in and to all Deliverables and all intellectual property rights and proprietary rights arising out of, embodied in, or related to such Deliverables, including copyrights, patents, trademarks, trade secrets, trade dress, mask work, utility design, derivative works, and all other rights and interests therein or related thereto. The Contractor represents and warrants that the State and the Agency shall acquire good and clear title to all Deliverables, free from any claims, liens, security interests, encumbrances, intellectual property rights, proprietary rights, or other rights or interests of the Contractor or of any third party, including any employee, agent, contractor, subcontractor, subsidiary, or affiliate of the Contractor. The Contractor (and Contractor's employees, agents, contractors, subcontractors, subsidiaries and affiliates) shall not retain any property interests or other rights in and to the Deliverables and shall not use any Deliverables, in whole or in part, for any purpose, without the prior written consent of the Agency and the payment of such royalties or other compensation as the Agency deems appropriate. Unless otherwise requested by the Agency, upon completion or termination of this Contract, the Contractor will immediately turn over to the Agency all Deliverables not previously delivered to the Agency, and no copies thereof shall be retained by the Contractor or its employees, agents, subcontractors, or affiliates, without the prior written consent of the Agency.

2.10.2 Waiver. To the extent any of the Contractor's rights in any Deliverables are not subject to assignment or transfer hereunder, including any moral rights and any rights of attribution and of integrity, the Contractor hereby irrevocably and unconditionally waives all such rights and enforcement thereof and agrees not to challenge the State's rights in and to the Deliverables.

2.10.3 Further Assurances. At the Agency's request, the Contractor will execute and deliver such instruments and take such other action as may be requested by the Agency to establish, perfect, or protect the State's rights in and to the Deliverables and to carry out the assignments, transfers and conveyances set forth in Section 2.10, *Intellectual Property*.

2.10.4 Publications. Prior to completion of all services required by this Contract, the Contractor shall not publish in any format any final or interim

report, document, form, or other material developed as a result of this Contract without the express written consent of the Agency. Upon completion of all services required by this Contract, the Contractor may publish or use materials developed as a result of this Contract, subject to confidentiality restrictions, and only after the Agency has had an opportunity to review and comment upon the publication. Any such publication shall contain a statement that the work was done pursuant to a contract with the Agency and that it does not necessarily reflect the opinions, findings, and conclusions of the Agency.

2.11 Warranties.

2.11.1 Construction of Warranties Expressed in this Contract with Warranties Implied by Law.

Warranties made by the Contractor in this Contract, whether: (1) this Contract specifically denominates the Contractor's promise as a warranty; or (2) the warranty is created by the Contractor's affirmation or promise, by a description of the Deliverables to be provided, or by provision of samples to the Agency, shall not be construed as limiting or negating any warranty provided by law, including without limitation, warranties that arise through the course of dealing or usage of trade. The warranties expressed in this Contract are intended to modify the warranties implied by law only to the extent that they expand the warranties applicable to the Deliverables provided by the Contractor. With the exception of Subsection 2.11.3, the provisions of this section apply during the Warranty Period as defined in the Contract Declarations and Execution Section.

2.11.2 Contractor represents and warrants that:

2.11.2.1 All Deliverables shall be wholly original with and prepared solely by the Contractor; or it owns, possesses, holds, and has received or secured all rights, permits, permissions, licenses, and authority necessary to provide the Deliverables to the Agency hereunder and to assign, grant and convey the rights, benefits, licenses, and other rights assigned, granted, or conveyed to the Agency hereunder or under any license agreement related hereto without violating any rights of any third party;

2.11.2.2 The Contractor has not previously and will not grant any rights in any Deliverables to any third party that are inconsistent with the rights granted to the Agency herein; and

2.11.2.3 The Agency shall peacefully and quietly have, hold, possess, use, and enjoy the Deliverables without suit, disruption, or interruption.

2.11.3 The Contractor represents and warrants that:

2.11.3.1 The Deliverables (and all intellectual property rights and proprietary rights arising out of, embodied in, or related to such Deliverables); and

2.11.3.2 The Agency's use of, and exercise of any rights with respect to, the Deliverables (and all intellectual property rights and proprietary rights arising out of, embodied in, or related to such Deliverables), do not and will not, under any circumstances, misappropriate a trade secret or infringe upon or violate any copyright, patent, trademark, trade dress or other intellectual property right, proprietary right or personal right of any third party. The Contractor further represents and warrants there is no pending or threatened claim, litigation, or action that is based on a claim of infringement or violation of an intellectual property right, proprietary right or personal right or misappropriation of a trade secret related to the Deliverables. The Contractor shall inform the Agency in writing immediately upon becoming aware of any actual, potential, or threatened claim of or cause of action for infringement or violation or an intellectual property right, proprietary right, or personal right or misappropriation of a trade secret. If such a claim or cause of action arises or is likely to arise, then the Contractor shall, at the Agency's request and at the Contractor's sole expense:

- Procure for the Agency the right or license to continue to use the Deliverable at issue;
- Replace such Deliverable with a functionally equivalent or superior Deliverable free of any such infringement, violation, or misappropriation;
- Modify or replace the affected portion of the Deliverable with a functionally equivalent or superior Deliverable free of any such infringement, violation, or misappropriation; or
- Accept the return of the Deliverable at issue and refund to the Agency all fees, charges, and any other amounts paid by the Agency with respect to such Deliverable. In addition, the Contractor agrees to indemnify, defend, protect, and hold harmless the State and its officers, directors, employees, officials, and agents as provided in the Indemnification Section of this Contract, including for any breach of the representations and warranties made by the Contractor in this section.

The warranty provided in this Section 2.11.3 shall be perpetual, shall not be subject to the contractual

Warranty Period, and shall survive termination of this Contract. The foregoing remedies provided in this subsection shall be in addition to and not exclusive of other remedies available to the Agency and shall survive termination of this Contract.

2.11.4 The Contractor represents and warrants that the Deliverables shall:

2.11.4.1 Be free from material Deficiencies; and

2.11.4.2 Meet, conform to, and operate in accordance with all Specifications and in accordance with this Contract during the Warranty Period, as defined in the Contract Declarations and Execution Section. During the Warranty Period the Contractor shall, at its expense, repair, correct or replace any Deliverable that contains or experiences material Deficiencies or fails to meet, conform to or operate in accordance with Specifications within five (5) Business Days of receiving notice of such Deficiencies or failures from the Agency or within such other period as the Agency specifies in the notice. In the event the Contractor is unable to repair, correct, or replace such Deliverable to the Agency's satisfaction, the Contractor shall refund the fees or other amounts paid for the Deliverables and for any services related thereto. The foregoing shall not constitute an exclusive remedy under this Contract, and the Agency shall be entitled to pursue any other available contractual, legal, or equitable remedies. The Contractor shall be available at all reasonable times to assist the Agency with questions, problems, and concerns about the Deliverables, to inform the Agency promptly of any known Deficiencies in any Deliverables, repair and correct any Deliverables not performing in accordance with the warranties contained in this Contract, notwithstanding that such Deliverables may have been accepted by the Agency, and provide the Agency with all necessary materials with respect to such repaired or corrected Deliverable.

2.11.5 The Contractor represents, warrants and covenants that all services to be performed under this Contract shall be performed in a professional, competent, diligent, and workmanlike manner by knowledgeable, trained, and qualified personnel, all in accordance with the terms and Specifications of this Contract and the standards of performance considered generally acceptable in the industry for similar tasks and projects. In the absence of a Specification for the performance of any portion of this Contract, the parties agree that the applicable Specification shall be the generally accepted industry standard. So long as the Agency notifies the

Contractor of any services performed in violation of this standard, the Contractor shall re-perform the services at no cost to the Agency, such that the services are rendered in the above-specified manner, or if the Contractor is unable to perform the services as warranted, the Contractor shall reimburse the Agency any fees or compensation paid to the Contractor for the unsatisfactory services.

2.11.6 The Contractor represents and warrants that the Deliverables will comply with all Applicable Law.

2.11.7 Obligations Owed to Third Parties. The Contractor represents and warrants that all obligations owed to third parties with respect to the activities contemplated to be undertaken by the Contractor pursuant to this Contract are or will be fully satisfied by the Contractor so that the Agency will not have any obligations with respect thereto.

2.12 Acceptance of Deliverables.

2.12.1 Acceptance of Written Deliverables. For the purposes of this section, written Deliverables means documents including, but not limited to project plans, planning documents, reports, or instructional materials ("Written Deliverables"). Although the Agency determines what Written Deliverables are subject to formal Acceptance, this section generally does not apply to routine progress or financial reports. Absent more specific Acceptance Criteria in the Special Terms, following delivery of any Written Deliverable pursuant to the Contract, the Agency will notify the Contractor whether or not the Deliverable meets contractual specifications and requirements. Written Deliverables shall not be considered accepted by the Agency, nor does the Agency have an obligation to pay for such Deliverables, unless and until the Agency has notified the Contractor of the Agency's Final Acceptance of the Written Deliverables. In all cases, any statements included in such Written Deliverables that alter or conflict with any contractual requirements shall in no way be considered as changing the contractual requirements unless and until the parties formally amend the Contract.

2.12.2. Reserved. (Acceptance of Software Deliverables)

2.12.3 Notice of Acceptance and Future Deficiencies. The Contractor's receipt of any notice of Acceptance, including Final Acceptance, with respect to any Deliverable shall not be construed as a waiver of any of the Agency's rights to enforce the

terms of this Contract or require performance in the event the Contractor breaches this Contract or any Deficiency is later discovered with respect to such Deliverable.

2.13 Contract Administration.

2.13.1 Independent Contractor. The status of the Contractor shall be that of an independent contractor. The Contractor, its employees, agents, and any subcontractors performing under this Contract are not employees or agents of the State or any agency, division, or department of the State simply by virtue of work performed pursuant to this Contract. Neither the Contractor nor its employees shall be considered employees of the Agency or the State for federal or state tax purposes simply by virtue of work performed pursuant to this Contract. The Agency will not withhold taxes on behalf of the Contractor (unless required by law).

2.13.2 Incorporation of Documents. To the extent this Contract arises out of a Solicitation, the parties acknowledge that the Contract consists of these contract terms and conditions as well as the Solicitation and the Bid Proposal. The Solicitation and the Bid Proposal are incorporated into the Contract by reference. If the Contractor proposed exceptions or modifications to the Sample Contract attached to the Solicitation or to the Solicitation itself, these proposed exceptions or modifications shall not be incorporated into this Contract unless expressly set forth herein. If there is a conflict between the Contract, the Solicitation, and the Bid Proposal, the conflict shall be resolved according to the following priority, ranked in descending order: (1) the Contract; (2) the Solicitation; (3) the Bid Proposal.

2.13.3 Intent of References to Bid Documents. To the extent this Contract arises out of a Solicitation, the references to the parties' obligations, which are contained in this Contract, are intended to supplement or clarify the obligations as stated in the Solicitation and the Bid Proposal. The failure of the parties to make reference to the terms of the Solicitation or the Bid Proposal in this Contract shall not be construed as creating a conflict and will not relieve the Contractor of the contractual obligations imposed by the terms of the Solicitation and the Contractor's Bid Proposal. Terms offered in the Bid Proposal, which exceed the requirements of the Solicitation, shall not be construed as creating an inconsistency or conflict with the Solicitation or the

Contract. The contractual obligations of the Agency are expressly stated in this document. The Bid Proposal does not create any express or implied obligations of the Agency.

2.13.4 Compliance with the Law. The Contractor, its employees, agents, and subcontractors shall comply at all times with all Applicable Law. All such Applicable Law is incorporated into this Contract as of the effective date of the Applicable Law. The Contractor and Agency expressly reject any proposition that future changes to Applicable Law are inapplicable to this Contract and the Contractor's provision of Deliverables and/or performance in accordance with this Contract. When providing Deliverables pursuant to this Contract the Contractor, its employees, agents, and subcontractors shall comply with all Applicable Law.

2.13.4.1 The Contractor, its employees, agents, and subcontractors shall not engage in discriminatory employment practices which are forbidden by Applicable Law. Upon the State's written request, the Contractor shall submit to the State a copy of its affirmative action plan, containing goals and time specifications, and non-discrimination and accessibility plans and policies regarding services to clients as required under 11 Iowa Admin. Code chapter 121.

2.13.4.2 In the event the Contractor contracts with third parties for the performance of any of the Contractor obligations under this Contract as set forth in Section 2.13.9, the Contractor shall take such steps as necessary to ensure such third parties are bound by the terms and conditions contained in this Section 2.13.4.

2.13.4.3 Notwithstanding anything in this Contract to the contrary, the Contractor's failure to fulfill any requirement set forth in this Section 2.13.4 shall be regarded as a material breach of this Contract and the State may cancel, terminate, or suspend in whole or in part this Contract. The State may further declare the Contractor ineligible for future state contracts in accordance with authorized procedures or the Contractor may be subject to other sanctions as provided by law or rule.

2.13.4.4 The Contractor, its employees, agents, and subcontractors shall also comply with all Applicable Law regarding business permits and licenses that may be required to carry out the work performed under this Contract.

2.13.4.5 If all or a portion of the funding used to pay for the Deliverables is being provided through a grant

from the Federal Government, the Contractor acknowledges and agrees that pursuant to applicable federal laws, regulations, circulars, and bulletins, the awarding agency of the Federal Government reserves certain rights including, without limitation, a royalty-free, non-exclusive and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for Federal Government purposes, the Deliverables developed under this Contract and the copyright in and to such Deliverables.

2.13.5 Procurement. The Contractor shall use procurement procedures that comply with all applicable federal, state, and local laws and regulations.

2.13.6 Non-Exclusive Rights. This Contract is not exclusive. The Agency reserves the right to select other contractors to provide Deliverables similar or identical to those described in the Scope of Work during the entire term of this Contract, which includes any extensions or renewals thereof.

2.13.7 Amendments. This Contract may only be amended by mutual written consent of the parties, with the exception of (1) the Contract end date, which may be extended under the Agency's sole discretion, and (2) the Business Associate Agreement, which may be modified or replaced on notice pursuant to Section 1.5, *Business Associate Agreement*. Amendments shall be executed on a form approved by the Agency that expressly states the intent of the parties to amend this Contract. This Contract shall not be amended in any way by use of terms and conditions in an Invoice or other ancillary transactional document. To the extent that language in a transactional document conflicts with the terms of this Contract, the terms of this Contract shall control.

2.13.8 No Third Party Beneficiaries. There are no third party beneficiaries to this Contract. This Contract is intended only to benefit the State and the Contractor.

2.13.9 Use of Third Parties. The Agency acknowledges that the Contractor may contract with third parties for the performance of any of the Contractor's obligations under this Contract. The Contractor shall notify the Agency in writing of all subcontracts relating to Deliverables to be provided under this Contract prior to the time the subcontract(s) become effective. The Agency reserves the right to review and approve all subcontracts. The Contractor may enter into these contracts to complete the project provided that the

Contractor remains responsible for all Deliverables provided under this Contract. All restrictions, obligations, and responsibilities of the Contractor under this Contract shall also apply to the subcontractors and the Contractor shall include in all of its subcontracts a clause that so states. The Agency shall have the right to request the removal of a subcontractor from the Contract for good cause.

2.13.10 Choice of Law and Forum. The laws of the State of Iowa shall govern and determine all matters arising out of or in connection with this Contract without regard to the conflict of law provisions of Iowa law. Any and all litigation commenced in connection with this Contract shall be brought and maintained solely in Polk County District Court for the State of Iowa, Des Moines, Iowa, or in the United States District Court for the Southern District of Iowa, Central Division, Des Moines, Iowa, wherever jurisdiction is appropriate. This provision shall not be construed as waiving any immunity to suit or liability including without limitation sovereign immunity in State or Federal court, which may be available to the Agency or the State of Iowa.

2.13.11 Assignment and Delegation. The Contractor may not assign, transfer, or convey in whole or in part this Contract without the prior written consent of the Agency. For the purpose of construing this clause, a transfer of a controlling interest in the Contractor shall be considered an assignment. The Contractor may not delegate any of its obligations or duties under this Contract without the prior written consent of the Agency. The Contractor may not assign, pledge as collateral, grant a security interest in, create a lien against, or otherwise encumber any payments that may or will be made to the Contractor under this Contract.

2.13.12 Integration. This Contract represents the entire Contract between the parties. The parties shall not rely on any representation that may have been made which is not included in this Contract.

2.13.13 No Drafter. No party to this Contract shall be considered the drafter of this Contract for the purpose of any statute, case law, or rule of construction that would or might cause any provision to be construed against the drafter.

2.13.14 Headings or Captions. The paragraph headings or captions used in this Contract are for identification purposes only and do not limit or construe the contents of the paragraphs.

2.13.15 Not a Joint Venture. Nothing in this Contract shall be construed as creating or constituting

the relationship of a partnership, joint venture, (or other association of any kind or agent and principal relationship) between the parties hereto. No party, unless otherwise specifically provided for herein, has the authority to enter into any contract or create an obligation or liability on behalf of, in the name of, or binding upon another party to this Contract.

2.13.16 Joint and Several Liability. If the Contractor is a joint entity, consisting of more than one individual, partnership, corporation, or other business organization, all such entities shall be jointly and severally liable for carrying out the activities and obligations of this Contract, for any default of activities and obligations, and for any fiscal liabilities.

2.13.17 Supersedes Former Contracts or Agreements. This Contract supersedes all prior contracts or agreements between the Agency and the Contractor for the Deliverables to be provided in connection with this Contract.

2.13.18 Waiver. Except as specifically provided for in a waiver signed by duly authorized representatives of the Agency and the Contractor, failure by either party at any time to require performance by the other party or to claim a breach of any provision of the Contract shall not be construed as affecting any subsequent right to require performance or to claim a breach.

2.13.19 Notice. With the exception of the Business Associate Agreement, as set forth in Section 1.5, *Business Associate Agreement*, any notices required by the Contract shall be given in writing by registered or certified mail, return receipt requested, by receipted hand delivery, by Federal Express, courier or other similar and reliable carrier which shall be addressed to each party's Contract Manager as set forth in the Contract Declarations and Execution Section. From time to time, the parties may change the name and address of a party designated to receive notice. Such change of the designated person shall be in writing to the other party.

Each such notice shall be deemed to have been provided:

- At the time it is actually received in the case of hand delivery;
- Within one (1) day in the case of overnight delivery, courier or services such as Federal Express with guaranteed next-day delivery; or
- Within five (5) days after it is deposited in the U.S. Mail.

2.13.20 Cumulative Rights. The various rights, powers, options, elections, and remedies of any party provided in this Contract, shall be construed as cumulative and not one of them is exclusive of the others or exclusive of any rights, remedies or priorities allowed either party by law, and shall in no way affect or impair the right of any party to pursue any other equitable or legal remedy to which any party may be entitled.

2.13.21 Severability. If any provision of this Contract is determined by a court of competent jurisdiction to be invalid or unenforceable, such determination shall not affect the validity or enforceability of any other part or provision of this Contract.

2.13.22 Time is of the Essence. Time is of the essence with respect to the Contractor's performance of the terms of this Contract. The Contractor shall ensure that all personnel providing Deliverables to the Agency are responsive to the Agency's requirements and requests in all respects.

2.13.23 Authorization. The Contractor represents and warrants that:

2.13.23.1 It has the right, power, and authority to enter into and perform its obligations under this Contract.

2.13.23.2 It has taken all requisite action (corporate, statutory, or otherwise) to approve execution, delivery, and performance of this Contract and this Contract constitutes a legal, valid, and binding obligation upon itself in accordance with its terms.

2.13.24 Successors in Interest. All the terms, provisions, and conditions of the Contract shall be binding upon and inure to the benefit of the parties hereto and their respective successors, assigns, and legal representatives.

2.13.25 Records Retention and Access.

2.13.25.1 Financial Records. The Contractor shall maintain accurate, current, and complete records of the financial activity of this Contract which sufficiently and properly document and calculate all charges billed to the Agency during the entire term of this Contract, which includes any extensions or renewals thereof, and for a period of at least seven (7) years following the date of final payment or completion of any required audit (whichever is later). If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the seven (7) year period, the records must be retained until completion of the action and resolution of all issues which arise from it,

or until the end of the regular seven (7) year period, whichever is later. The Contractor shall permit the Agency, the Auditor of the State of Iowa or any other authorized representative of the State and where federal funds are involved, the Comptroller General of the United States or any other authorized representative of the United States government, to access and examine, audit, excerpt and transcribe any directly pertinent books, documents, papers, electronic or optically stored and created records, or other records of the Contractor relating to orders, Invoices or payments, or any other Documentation or materials pertaining to this Contract, wherever such records may be located. The Contractor shall not impose a charge for audit or examination of the Contractor's books and records. Based on the audit findings, the Agency reserves the right to address the Contractor's board or other managing entity regarding performance and expenditures. When state or federal law or the terms of this Contract require compliance with the OMNI Circular, or other similar provision addressing proper use of government funds, the Contractor shall comply with these additional records retention and access requirements:

2.13.25.1.1 Records of financial activity shall include records that adequately identify the source and application of funds. When the terms of this Contract require matching funds, cash contributions made by the Contractor and third-party in-kind (property or service) contributions, these funds must be verifiable from the Contractor's records. These records must contain information pertaining to contract amount, obligations, unobligated balances, assets, liabilities, expenditures, income, and third-party reimbursements.

2.13.25.1.2 The Contractor shall maintain accounting records supported by source documentation that may include but are not limited to cancelled checks, paid bills, payroll, time and attendance records, and contract award documents.

2.13.25.1.3 The Contractor, in maintaining project expenditure accounts, records and reports, shall make any necessary adjustments to reflect refunds, credits, underpayments or overpayments, as well as any adjustments resulting from administrative or compliance reviews and audits. Such adjustments shall be set forth in the financial reports filed with the Agency.

2.13.25.1.4 The Contractor shall maintain a sufficient record keeping system to provide the necessary data

for the purposes of planning, monitoring, and evaluating its program.

2.13.25.2 The Contractor shall retain all non-medical and medical client records for a period of seven (7) years from the last date of service for each patient; or in the case of a minor patient or client, for a period consistent with that established by Iowa Code § 614.1(9).

2.13.26 Audits. Local governments and non-profit subrecipient entities that expend \$750,000 or more in a year in federal awards (from all sources) shall have a single audit conducted for that year in accordance with the provisions of the OMNI Circular, OMB Uniform Guidance: Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards at 2 C.F.R. 200. A copy of the final audit report shall be submitted to the Agency if either the schedule of findings and questioned costs or the summary schedule of prior audit findings includes any audit findings related to federal awards provided by the Agency. If an audit report is not required to be submitted per the criteria above, the subrecipient must provide written notification to the Agency that the audit was conducted in accordance with Government Auditing Standards and that neither the schedule of findings and questioned costs nor the summary schedule of prior audit findings includes any audit findings related to federal awards provided by the Agency. See the OMNI Circular, Section 200.330, Subrecipient and Contractor Determinations for a discussion of subrecipient versus contractor (vendor) relationships. The Contractor shall provide the Agency with a copy of any written audit findings or reports, whether in draft or final form, within two (2) Business Days following receipt by the Contractor. The requirements of this paragraph shall apply to the Contractor as well as any subcontractors.

2.13.27 Reimbursement of Audit Costs. If the Auditor of the State of Iowa notifies the Agency of an issue or finding involving the Contractor's noncompliance with laws, rules, regulations, and/or contractual agreements governing the funds distributed under this Contract, the Contractor shall bear the cost of the Auditor's review and any subsequent assistance provided by the Auditor to determine compliance. The Contractor shall reimburse the Agency for any costs the Agency pays to the Auditor for such review or audit.

2.13.28 Staff Qualifications and Background Checks. The Contractor shall be responsible for assuring that all persons, whether they are employees,

agents, subcontractors, or anyone acting for or on behalf of the Contractor, are properly licensed, certified, or accredited as required under applicable state law and the Iowa Administrative Code. The Contractor shall provide standards for service providers who are not otherwise licensed, certified, or accredited under state law or the Iowa Administrative Code.

The Agency reserves the right to conduct and/or request the disclosure of criminal history and other background investigation of the Contractor, its officers, directors, shareholders, and the Contractor's staff, agents, or subcontractors retained by the Contractor for the performance of Contract services.

2.13.29 Solicitation. The Contractor represents and warrants that no person or selling agency has been employed or retained to solicit and secure this Contract upon an agreement or understanding for commission, percentage, brokerage, or contingency excepting bona fide employees or selling agents maintained for the purpose of securing business.

2.13.30 Obligations Beyond Contract Term. All obligations of the Agency and the Contractor incurred or existing under this Contract as of the date of expiration or termination will survive the expiration or termination of this Contract. Contract sections that survive include, but are not necessarily limited to, the following: (1) Section 2.4.2, *Erroneous Payments and Credits*; (2) Section 2.5.5, *Limitation of the State's Payment Obligations*; (3) Section 2.5.6, *Contractor's Contract Close-Out Duties*; (4) Section 2.7, *Indemnification*, and all subparts thereof; (5) Section 2.9, *Ownership and Security of Agency Information*, and all subparts thereof; (6) Section 2.10, *Intellectual Property*, and all subparts thereof; (7) Section 2.13.10, *Choice of Law and Forum*; (8) Section 2.13.16, *Joint and Several Liability*; (9) Section 2.13.20, *Cumulative Rights*; (10) Section 2.13.24 *Successors In Interest*; (11) Section 2.13.25, *Records Retention and Access*, and all subparts thereof; (12) Section 2.13.26, *Audits*; (13) Section 2.13.27, *Reimbursement of Audit Costs*; (14) Section 2.13.35, *Repayment Obligation*; and (15) Section 2.13.39, *Use of Name or Intellectual Property*.

2.13.31 Counterparts. The parties agree that this Contract has been or may be executed in several counterparts, each of which shall be deemed an original and all such counterparts shall together constitute one and the same instrument.

2.13.32 Delays or Potential Delays of Performance.

Whenever the Contractor encounters any difficulty which is delaying or threatens to delay the timely performance of this Contract, including but not limited to potential labor disputes, the Contractor shall immediately give notice thereof in writing to the Agency with all relevant information with respect thereto. Such notice shall not in any way constitute a basis for an extension of the delivery schedule or be construed as a waiver by the Agency or the State of any rights or remedies to which either is entitled by law or pursuant to provisions of this Contract. Failure to give such notice, however, may be grounds for denial of any request for an extension of the delivery schedule because of such delay. Furthermore, the Contractor will not be excused from failure to perform that is due to a Force Majeure unless and until the Contractor provides notice pursuant to this provision.

2.13.33 Delays or Impossibility of Performance Based on a Force Majeure. Neither party shall be in default under the Contract if performance is prevented, delayed, or made impossible to the extent that such prevention, delay, or impossibility is caused by a Force Majeure. If a delay results from a subcontractor's conduct, negligence or failure to perform, the Contractor shall not be excused from compliance with the terms and obligations of the Contract unless the subcontractor or supplier is prevented from timely performance by a Force Majeure as defined in this Contract.

If a Force Majeure delays or prevents the Contractor's performance, the Contractor shall immediately use its best efforts to directly provide alternate, and to the extent possible, comparable performance. Comparability of performance and the possibility of comparable performance shall be determined solely by the Agency.

The party seeking to exercise this provision and not perform or delay performance pursuant to a Force Majeure shall immediately notify the other party of the occurrence and reason for the delay. The parties shall make every effort to minimize the time of nonperformance and the scope of work not being performed due to the unforeseen events. Dates by which performance obligations are scheduled to be met will be extended only for a period of time equal to the time lost due to any delay so caused.

2.13.34 Right to Address the Board of Directors or Other Managing Entity. The Agency reserves the right to address the Contractor's board of directors or

other managing entity of the Contractor regarding performance, expenditures, and any other issue the Agency deems appropriate.

2.13.35 Repayment Obligation. In the event that any State and/or federal funds are deferred and/or disallowed as a result of any audits or expended in violation of the laws applicable to the expenditure of such funds, the Contractor shall be liable to the Agency for the full amount of any claim disallowed and for all related penalties incurred. The requirements of this paragraph shall apply to the Contractor as well as any subcontractors.

2.13.36 Reporting Requirements. If this Contract permits other State agencies and political subdivisions to make purchases off of the Contract, the Contractor shall keep a record of the purchases made pursuant to the Contract and shall submit a report to the Agency on a quarterly basis. The report shall identify all of the State agencies and political subdivisions making purchases off of this Contract and the quantities purchased pursuant to the Contract during the reporting period.

2.13.37 Immunity from Liability. Every person who is a party to the Contract is hereby notified and agrees that the State, the Agency, and all of their employees, agents, successors, and assigns are immune from liability and suit for or from the Contractor's and/or subcontractors' activities involving third parties and arising from the Contract.

2.13.38 Public Records. The laws of the State require procurement and contract records to be made public unless otherwise provided by law.

2.13.39 Use of Name or Intellectual Property. The Contractor agrees it will not use the Agency and/or State's name or any of their intellectual property, including but not limited to, any State, state agency, board or commission trademarks or logos in any manner, including commercial advertising or as a business reference, without the expressed prior written consent of the Agency and/or the State.

2.13.40 Taxes. The State is exempt from Federal excise taxes, and no payment will be made for any taxes levied on the Contractor's employees' wages. The State is exempt from State and local sales and use taxes on the Deliverables.

2.13.41 No Minimums Guaranteed. The Contract does not guarantee any minimum level of purchases or any minimum amount of compensation.

2.14 Contract Certifications. The Contractor will fully comply with obligations herein. If any

conditions within these certifications change, the Contractor will provide written notice to the Agency within twenty-four (24) hours from the date of discovery.

2.14.1 Certification of Compliance with Pro-Children Act of 1994. The Contractor must comply with Public Law 103-227, Part C Environmental Tobacco Smoke, also known as the Pro-Children Act of 1994 (Act). This Act requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted by an entity and used routinely or regularly for the provision of health, day care, education, or library services to children under the age of 18, if the Deliverables are funded by federal programs either directly or through State or local governments. Federal programs include grants, cooperative agreements, loans or loan guarantees, and contracts. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities (other than clinics) where Women, Infants, and Children (WIC) coupons are redeemed.

The Contractor further agrees that the above language will be included in any subawards that contain provisions for children's services and that all subgrantees shall certify compliance accordingly. Failure to comply with the provisions of this law may result in the imposition of a civil monetary penalty of up to \$1,000.00 per day.

2.14.2 Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transactions

By signing this Contract, the Contractor is providing the certification set out below:

2.14.2.1 The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the Contractor knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the Agency or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

2.14.2.2 The Contractor shall provide immediate written notice to the Agency if at any time the Contractor learns that its certification was erroneous

when submitted or had become erroneous by reason of changed circumstances.

2.14.2.3 The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principle, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. Contact the Agency for assistance in obtaining a copy of those regulations.

2.14.2.4 The Contractor agrees by signing this Contract that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the Agency or agency with which this transaction originated.

2.14.2.5 The Contractor further agrees by signing this Contract that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

2.14.2.6 A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. A participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

2.14.2.7 Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

2.14.2.8 Except for transactions authorized under Section 2.14.2.4 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is

proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the federal government, the Agency or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

2.14.2.9 The Contractor certifies, by signing this Contract, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

Where the Contractor is unable to certify to any of the statements in this certification, such Contractor shall attach an explanation to this Contract.

2.14.3 Restriction on Lobbying.

This section is applicable to all federally-funded contracts.

Title 45 of the Code of Federal Regulations, Part 93 sets conditions on the use of Federal funds supporting this Contract. The Contractor shall comply with all requirements of CFR Part 93 which is incorporated herein as if fully set forth. No appropriated funds supporting this Contract may be expended by the Contractor for payment of any person for influencing or attempting to influence an employee of the agency (as defined in 5 U.S.C.552(f)), a member of Congress in connection with the award of this Contract, the making of any federal funding grant award connected to this Contract, the making of any Federal loan connected to this Contract, the entering into any cooperative agreement connected to this Contract, and the extension, continuation, or modification of this Contract.

2.14.3.1 The Contractor shall file with the Agency a certification form, set forth in Appendix A of 45 CFR Part 93, certifying the Contractor, including any subcontractor(s) at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) have not made, and will not make, any payment prohibited under 45 CFR § 93.100.

2.14.3.2 The Contractor shall file with the Agency a disclosure form, set forth in Appendix B of 45 CFR Part 93, in the event the Contractor or subcontractor(s) at any tier (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) has made or has agreed to make any payment using non-appropriated funds,

including profits from any covered Federal action, which would be prohibited under 45 CFR §93.100 if paid for with appropriated funds. All disclosure forms shall be forwarded from tier to tier until received by the Contractor and shall be treated as a material representation of fact upon which all receiving tiers shall rely.

2.14.3.3 The Contractor shall file with the Agency subsequent disclosure forms at the end of each calendar quarter in which there occurs any event that requires disclosure or materially affects the accuracy of the information contained in any disclosure form previously filed. Such events include:

2.14.3.3.1 A cumulative increase of \$25,000 or more in the amount paid or expected to be paid to influence a covered Federal action;

2.14.3.3.2 A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; and

2.14.3.3.3 A change in the officer(s), employee(s), or Member(s) contacted to influence or attempt to influence a covered Federal action.

2.14.3.4 The Contractor may be subject to civil penalties if the Contractor fails to comply with the requirements of 45 CFR Part 93. An imposition of a civil penalty does not prevent the Agency from taking appropriate enforcement actions which may include, but not necessarily be limited to, termination of the Contract.

2.14.4 Certification Regarding Drug Free Workplace

2.14.4.1 Requirements for Contractors Who are Not Individuals. If the Contractor is not an individual, the Contractor agrees to provide a drug-free workplace by:

2.14.4.1.1 Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited in the Contractor's workplace and specifying the actions that will be taken against employees for violations of such prohibition;

2.14.4.1.2 Establishing a drug-free awareness program to inform employees about:

- The dangers of drug abuse in the workplace;
- The Contractor's policy of maintaining a drug-free workplace;
- Any available drug counseling, rehabilitation, and employee assistance programs; and

- The penalties that may be imposed upon employees for drug abuse violations;

2.14.4.1.3 Making it a requirement that each employee to be engaged in the performance of such contract be given a copy of the statement required by Subsection 2.14.4.1.1;

2.14.4.1.4 Notifying the employee in the statement required by Subsection 2.14.4.1.1 that as a condition of employment on such contract, the employee will:

- Abide by the terms of the statement; and
- Notify the employer of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after such conviction;

2.14.4.1.5 Notifying the contracting agency within ten (10) days after receiving notice under the second unnumbered bullet of Subsection 2.14.4.1.4 from an employee or otherwise receiving actual notice of such conviction;

IOWA DEPARTMENT OF HUMAN SERVICES CHILD WELFARE MODEL OF PRACTICE

INTRODUCTION

DHS's child welfare model of practice is intended to define who we serve and the intended outcomes of child welfare services, as well as the guiding principles for our work and expectations related to practice and program and organizational capacity. This statement of practice has been developed to define, affirm, guide, reinforce, and support DHS's strength-based and family-centered model of practice at all levels. The model of practice is intended to guide practice in individual cases and at the program and organization level, and can be used as a basis of comparison in measuring or judging capacity, quantity, and quality.

The standards in this document establish DHS's expectations for both front-line practice and for program and organizational capacity.

- The first set of standards is framed in terms of front-line practice. They are organized around a "life of the case" framework — starting with intake and moving through service provision and case closure.
- The second set of standards is framed around the program and organizational capacity of the child welfare system.

POPULATION SERVED BY DHS'S CHILD WELFARE SERVICES

DHS is responsible for providing child welfare services to those children and families in which child abuse has occurred and those at high risk for abuse and neglect. The following factors are used to determine when DHS opens a child welfare service case.

- Outcome of the child abuse assessment. If the child abuse assessment is 1) founded or 2) confirmed and not placed and the child is believed to be at high risk of future abuse or neglect.
- Court action. The Juvenile Court may determine that a child is a Child in Need of Assistance (CINA) and in need of DHS supervision.

OUTCOMES

DHS's model of practice is focused on the outcomes in the Better Results for Kids Redesign and the seven outcomes from the federal Child and Family Service Review (CFSR).

Child Welfare Outcomes

GUIDING PRINCIPLES

DHS's strength-based and family-centered model of practice is rooted in the principles and practices associated with a strength-based and family-centered approach. Our work is also guided by DHS's guiding principles.

The four guiding principles below guide the work of DHS with children and families, each other and the community. They apply to our work with children and families through the life of a case.

- **Customer focus.** We listen to and address the needs of our customers in a respectful and responsive manner that builds upon their strengths. Our services promote meaningful connections to family and community.
- **Excellence.** We are a model of excellence through efficient, effective, and responsible public service. We communicate openly and honestly, and adhere to the highest standards of ethics and professional conduct.
- **Accountability.** We maximize the use of resources and use data to evaluate performance and make informed decisions to improve results.
- **Teamwork.** We work collaboratively with customers, employees, and public and private partners to achieve results.

MODEL OF PRACTICE RELATED TO FRONTLINE PRACTICE¹

The following standards apply to frontline practice between the social worker and the child and family.

Intake and Assessment

- When a child abuse report is received, the intake focuses on child safety and captures information necessary to make an informed decision on whether to accept or reject the report.
- During the child abuse assessment, the social worker assesses child's safety, including threats of maltreatment to the child, underlying conditions and contributing factors that may impact threats of maltreatment to the child, factors related to the child's vulnerability, and the family's protective capacities.

¹ Practice is defined as locally delivered problem solving activities in response to individual children and families and their unique strengths and needs that is aimed at improving child safety, permanency and well-being. Core practice functions include engaging, assessing, case planning, securing necessary resources, implementing a plan of intervention, and monitoring.

During the child abuse assessment, the social worker also assesses the safety of other children in the home.

- When the social worker opens a case for child welfare services, he/she completes a comprehensive family assessment that focuses on the major needs of the child, parents, and foster parents, related to child safety, permanency, and well-being. The assessment identifies the critical underlying issues that must be resolved to achieve safety, permanency and well-being for the child.
- The social worker makes the process transparent to the family, openly sharing information about the process and tools used.
- Efforts are made to ensure that all persons working with the child and family have a shared understanding of the child and family.
- Assessment is an ongoing process and is solution-focused.

Case Planning and Review

- Case decisions and planning are based on concerns about the child's health and safety.
- The child and the child's parents are actively engaged and involved in case planning activities, unless the child is not old enough or is incapacitated or parental involvement is contrary to the child's safety or permanency goal.
- Family team decision-making meetings are used to engage families and their informal supports throughout the case planning process.
- The child's case plan is relevant to the child and family's needs and goals; includes a coherent set of strategies, supports, services, and timelines; reflects a long-term view about what will enable the family to live safely independent of outside supervision; and is coordinated with other plans that the child and family may have (e.g., ETP, family investment plan, substance abuse treatment plan, etc.).
- There is a single point of coordination and accountability to ensure that plans are implemented, monitoring activities are conducted, and information is shared with service team members.
- Family team decision-making meetings and other processes are used to regularly review the child and family's status, service progress, and results to ensure that the service plan

IOWA DEPARTMENT OF HUMAN SERVICES CHILD WELFARE MODEL OF PRACTICE

maintains relevance, integrity, and appropriateness. The child's case plan is modified as goals are met and circumstances change.

- The social worker uses full disclosure when discussing progress towards outcomes.

Service Provision (both in-home and out-of-home care)

➤ General

- ◆ When a child is found to be unsafe, immediate safety plans are implemented to address known threats of maltreatment.
- ◆ When a child abuse report is confirmed and threat of maltreatment is identified, services or supports are provided to protect the child in his/her own, reduce the threat of maltreatment and improve caregiver protective capacities, unless the threat of maltreatment is so great that removal without placement prevention services and supports is appropriate.
- ◆ Relevant community partners (e.g., domestic violence, substance abuse, mental health, schools, community providers, public health, etc.) are engaged in keeping children safe.
- ◆ Children and families receive individualized services matched to their strengths and needs, and to the safety threats identified in the assessment process.
- ◆ The child's permanency goal matches the child's individual needs for permanency and stability.
- ◆ Services are coordinated and information is shared among those providing services to the child and family. All those working with the family function as a team and work collaboratively to solve problems in a manner consistent with the principles of family-centered practice.

➤ Health

- ◆ The child's physical health needs (e.g., preventive health and dental care, immunizations, treatment for identified health and dental care) are addressed, as needed.
- ◆ The child's mental health needs are addressed, as needed.

➤ Education

- ◆ The child's case plan reflects attention to the child's education.

➤ Social Worker Visits

- ◆ The social worker responsible for case planning and coordination has a face-to-face visit with the child frequently enough to ensure the safety of the child, be consistent with the needs of the child and achieve the case plan goals.
- ◆ The social worker responsible for case planning and coordination has a face-to-face visit with the parent frequently enough to monitor case plan progress, evaluate results and achieve case plan goals.
- ◆ Visits with the child and parents focus on the issues pertinent to child safety and well-being, the safety and well-being of other children in the home, case planning, service diversity and goal attainment.

Out-of-Home Service Provision

➤ Placement Selection

- ◆ When children cannot live safely with their families, diligent efforts are made to identify, evaluate, and consider relatives for placement, consistent with child safety and well-being. Appropriate supports are provided to relative placements.
- ◆ Children are placed within community or county of their parents' residence, unless the reason for the location of the placement outside the community or county is to help the child achieve his or her case plan goals.
- ◆ When a child is placed into foster care, placement selection takes into account the location of the child's school; efforts are made to avoid the child having to change schools as the result of foster care placement.
- ◆ Children are placed with their siblings, unless it is not appropriate to do so based on the child's safety or permanency goal. When children are not placed with their siblings, efforts are made to promote and support interactions between siblings unless interactions are contrary to the child's safety or permanency goal.

IOWA DEPARTMENT OF HUMAN SERVICES CHILD WELFARE MODEL OF PRACTICE

- ◆ Native American children are placed in compliance with placement preference within the Indian Child Welfare Act.
- ◆ Temporary or interim placements for children are avoided. Children are placed in settings that could reasonably be expected to become the child's permanent placement if necessary.
- Family Relationships
 - ◆ A child's primary connections to neighborhood, community, family, friends, culture and faith are preserved in the foster care placement.
 - ◆ Efforts (including services, visits, family interactions, etc.) are made to promote or maintain a strong emotionally supportive relationship between a child in foster care and the child's parents, unless it is not appropriate to do so based on the child's safety or permanency goal.
- Health and Education
 - ◆ Medical information is shared with foster parents prior to or at the time of placement. Foster parents are given copies of the child's health records.
 - ◆ Foster parents are given copies of the child's educational records.
- Permanency and Stability
 - ◆ Efforts are made to develop an alliance between the birth family, foster family, resource family, or adoptive family, extended family members, the agency and the child/youth as the vehicle to achieve timely permanence.
 - ◆ The social worker respectfully engages the family and family and child/youth in a candid discussion about the impact of foster care on children, permanency options, and the possible outcomes of not following through with the case plan.
 - ◆ Services and supports are provided to maintain a child's placement and to reduce the risk of disruption. Placement changes for a child occur only for reasons directly related to helping the child achieve the goals in his or her case plan.
- ◆ When reunification is the permanency goal, efforts are made to return the child safely to his/her home within 12 months of removal.
- ◆ Families whose children are reunited receive ongoing supports that enable them to safely sustain their children in their home.
- ◆ Concurrent planning is used whenever the prognosis for reunification is low.
- ◆ Reasonable efforts are made to place children who are legally free for adoption with a permanent adoptive family and to finalize adoptive and to finalize the adoption within 24 months of the most recent entry into foster care.
- ◆ A child's permanency goal is "another planned permanent living arrangement" other than adoption, guardianship or return to family only after the other more permanent goals have been considered and appropriately ruled out for this child.
- ◆ Services provided to a child in foster care are consistent with and promote achievement of the stated permanency goal on a timely basis.
- Transition for Older Youth
 - ◆ Children age 16 and older have a written plan that includes services and supports to help the youth live safely and function successfully independent of agency services.
- Standards Related to Cultural Competence
 - ◆ Services provided to children and families respect their cultural, ethnic, and religious heritage.
- Standards Related to Transition and Case Closure
 - ◆ Safety and risk is assessed prior to transitions and case closure.
 - ◆ Cases are closed when the goals related to safety, risk, and permanency have been achieved.
 - ◆ Services and supports are in place to assure the child and family a smooth, timely, and successful transition when changes occur.

- ◆ Families whose children are reunited receive transitional supports that enable them to safely sustain their children in their home.
- ◆ Families are connected with informal supports to assist them to function independent of outside supervision upon case closure.

- Services can be individualized to meet the unique needs of children and families.
- Services are culturally responsive to the community's children and families.

Child Welfare Information System

- Information is accessible to frontline staff, supervisors, managers and administrators on a timely basis to facilitate their work.
- The information system serves as an efficient and effective tool to help frontline staff manage their cases and supports their work.

The Cultural Equity Alliance: A Statewide Child Welfare System Steering Committee

Mission Statement

"The Cultural Equity Alliance pursues equity by identifying and implementing institutional policy and practice changes that lead to the reduction of disparities and disproportionality in Iowa's child welfare system."

Child Welfare System Definition

The child welfare system is made up of individuals, families, organizations, and community-based programs that work together to improve the safety, health, permanency, and well-being of children. The responsibility to keep children safe from abuse and neglect is shared by families, community, tribes, helping agencies, educational systems, faith-based groups, law enforcement, courts, the Department of Human Services (DHS), and others.

The adopted principles below are a guide as we work together to improve our culturally responsive approach with children and families from the local community level to the state level.

Guiding Principles

The Cultural Equity Alliance believes that the following principles and practices are essential to reducing disparities in the child welfare system. They represent culturally and linguistically appropriate service principles that can help promote equity for families within the system. No one principle is more important than another, and they are cited below in no particular order. All are equally essential to operating a child welfare system that is truly culturally responsive. The principles cited below are based closely upon National Standards on Culturally and Linguistically Appropriate Service (CLAS) Standards, Office of Minority Health, 2001.

1) Provide effective, equitable, understandable and respectful quality supports and services that are responsive to diverse cultural beliefs and practices, preferred languages, health literacy and other communication needs.

Governance, Leadership and Workforce

- 2) Advance and sustain organizational governance and leadership that promotes principles and equity through policy, practices and allocated resources.
- 3) Recruit, promote and support a culturally and linguistically diverse governance, leadership and workforce that are responsive to the population in the service area.
- 4) Educate and train governance, leadership and workforce in culturally and linguistically appropriate policies and practices on an ongoing basis.

Communication and Language Assistance

- 5) Offer language assistance to individuals who have limited English proficiency and/or other communication needs, at no cost to them, to facilitate timely access to all supports and services.
- 6) Inform all individuals of the availability of language assistance services clearly and in their preferred language, verbally and in writing.
- 7) Ensure the competence of individuals providing language assistance, recognizing that the use of untrained individuals and/or minors as interpreters should be avoided.
- 8) Provide easy-to-understand print and multimedia materials and signage in the languages commonly used by the populations in the service area.

Engagement, Continuous Improvement and Accountability

- 9) Establish culturally and linguistically appropriate goals, policies and management accountability, and infuse them throughout the organizations' planning and operations.
- 10) Conduct ongoing assessments of the organization's guiding principles related activities and integrate related measures into assessment, measurement and continuous quality improvement activities.
- 11) Collect and maintain accurate and reliable demographic data to monitor and evaluate the impact of principles on equity and outcomes and to inform service delivery.
- 12) Conduct regular assessments of community assets and needs and use the results to plan and implement services that respond to the cultural and linguistic diversity of populations in the service area.
- 13) Partner with the community to design, implement and evaluate policies, practices and services to ensure cultural and linguistic appropriateness.
- 14) Create conflict- and grievance-resolution processes that are culturally and linguistically appropriate to identify, prevent and resolve conflicts or complaints.
- 15) Communicate the organization's progress in implementing and sustaining principles to all stakeholders, constituents and the general public.

Guiding Principles For Iowa's Future Child Welfare System

Safety for children emerges and is enhanced when we do all the following:

1. Families, children, youth and caregivers will be treated with dignity and respect while having a voice in decisions that affect them.
2. The ideal place for children is with their families; therefore, we will ensure children remain in their own homes whenever safely possible.
3. When services away from the family are necessary, children will receive them in the most family-like setting and together with siblings whenever possible.
4. Permanency connections with siblings and caring and supportive adults will be preserved and encouraged.
5. Children will be reunited with their families and siblings as soon as safely possible.
6. Community stakeholders and tribes will be actively engaged to protect children and support families.
7. Services will be tailored to families and children to meet their unique needs.
8. Child welfare professionals will be supported through ongoing development and mentoring to promote success and retention.
9. Leadership will be demonstrated within all levels of the child welfare system.
10. Decision making will be outcome based, resource-driven and continuously evaluated for improvement.
